Forensic Psychiatry
This is a required rotation done in the PGY4 year done at Sparrow St. Lawrence campus, Ingham County Jail and through CEICMH Mental Health Court. Attending physician is Michigan State University full-time faculty member.

- Residents participate in the community-based mental health court groups once a week with people who have been court-appointed as part of sentencing and treatment. Senior residents are responsible for reviewing cases and then providing court testimony in civil commitment hearings for patients hospitalized on the Sparrow St. Lawrence Campus adult psychiatry unit. They are capped at 6 hearings per session and do all testimony on Monday. Residents see patients Medication management on patients with chronic mental illnesses and new evaluations are completed at the Ingham County Jail, with approximately 2 new cases per day and 5-8 follow-ups

- The population seen for commitment has an average age of 37 years. Fifty-one percent are of predominantly African-American and Hispanic origin. Approximately 49% are Caucasian. Thirty-two percent of the population carries a substance abuse diagnosis, 18% personality disorder diagnosis, 21% depression, 12% schizophrenia, and various other diagnoses make up the balance of the population. The population seen at the Ingham County Jail is consistent with those seen at CEI Community Mental Health. The case load is variable at the differing sites with residents doing up to 6 evaluations at the Adult Psychiatric Unit.
