Olin Student Health Center Same Day Urgent Clinic

A required two 4-week block rotation. This rotation usually takes place in the resident’s PGY2 or PGY4 year or as a continuous experience over the PGY3 outpatient experience. This rotation consists of three afternoon clinics per week at the Olin Student Health Center at MSU.

- Faculty includes MSU/Olin full-time and part-time psychiatrists. There is also a social worker on site for consultation when needed.
- Residents spend 5 hours in seminars and case conferences at MSU. Olin psychiatrists covering the urgent clinic are available on site.
- The clinical population consists of Michigan State University students. MSU has over 46,000 students, including undergraduate, graduate, medical students, law students and international students.
- An average caseload would consist of 3-5 patients per afternoon.
- Residents continue to have 2 hours of weekly individual supervision with their psychiatry supervisors outside of the rotation. They see patients Monday, Tuesday, Wednesday and Friday afternoons with the Olin psychiatrists on staff.
- This clinic serves the needs of the student population at MSU and provides urgent psychiatric consultation and crisis intervention.
